

REMARKS

Claims 1-35 are allowed in this application.¹ Applicants propose to amend claims 1, 19, 22, and 29 pursuant to 37 CFR 312 to correct problems related to antecedent basis, which problems are clearly apparent from the claims themselves. The amendments are thus directed to formal matters only, do not constitute prosecution on the merits of the application, and require no additional search or examination or anything more than a cursory review of the claims.

Independent claims 1, 19 and 29 have the problem that "the first component of the received signal" has no antecedent basis and should be "a first component of the received signal." Compare claim 1, 19 and 29, with claims 30, 31 and 34 which appropriately recite "a first component of the received signal." Therefore, claims 1, 19 and 29 are amended to similarly recite "a first component..." to prevent improper antecedent basis.

Claim 22 has the problem that it depends from claim 19 and recites "the receiving unit", whereas claim 19 recites "a receiving station" rather than "a receiving unit". Therefore, claim 22 is amended to recite "the receiving station" merely to prevent improper antecedent basis.

The Commissioner is hereby authorized to charge any fees necessary for the consideration of this Amendment, to the undersigned attorney's Deposit Account No. 10-0100 (Dkt. No. NOKIA.4011US).

Respectfully Submitted,

January 16, 2008

Robert M. Bauer, Esq., Reg. No. 34,487

¹ Claims 29-63 were renumbered as claims 1-35 in the Notice of Allowance.
